Top Professor urges Australia to Sell the ABC to Gina Rinehart! Would be <u>'magnificent'</u>

he says

Get Excited at the prospect of Gina's own broadcasting corporation. Professor Sinclair Davidson adjunct fellow at <u>IPA</u> has called for the national broadcaster to be chopped up and **sold to** <u>IPA's major funder</u> Gina Rinehart. Cool.

BILLIONAIRES LIVES MATTER!

While the Global Pandemic takes brutal effect on nations across the earth. As long overdue unrest simmers and potential wars unfold it's easy to forget the Billionaire class. How are they going? Thought for the Day <u>Can Billionaires exist in a just and equitable</u> <u>society?</u>

Imagine Donald Trump moving to Denmark. I know it's a stretch but just imagine. He gets beat in November and decides to live the 'quiet life' here. Sick of fake news or whatever. Some would be horrified others not so much. How much do you think he could change this town? Do you think the local shire or indeed state government would be able to stop him doing as *he liked with regard development or* sponsorship? Would we have a Trump Golf course? Rename the town to Trump town? Trump all over the kids sport logos etc. We equate wealth with being right and therefore inherently good. The wealthier you are the more likely you are to be heard and believed/obeyed.

It is unlikely that any human has or will exist that can use that much power wisely beyond their own self-interest. We got rid of Kings. Unchecked wealth undermines democracy. It cannot help but do so. They will not give this power away willingly. Why would they? Would you? The existence of billionaires in a world where people are still struggling to survive should be offensive to all. 34 exist in Australia. Most of them actively use their resources to push back on first peoples land rights, climate action and workers' rights. They work against the interests of all others and try and portray themselves as the 'great and good'. A very sick lie. I wonder if they believe it themselves?
